

**Midna –**

**January 20, 2012**

*Midna has arrived safe and sound. Trish said she was wonderful on the trip. She was a little nervous coming out of the trailer but settled very quickly in her stall, eating and drinking. She was very interested and curious with her new surroundings but not upset or worried. Very happy to stand by us and get scratched, it was hard to get pictures in focus cos every time she saw me she would come to be patted! So sweet! I will keep you posted!*

**January 26, 2012**

Just wanted to touch base with you to let you know I am in love with Midna. She is the sweetest girl, and even when she is a bit nervous she is so trusting and gentle. I want to thank you and all the wonderful volunteers that loved her so much while she was at the rescue.

I have worked with her everyday, continuing with groundwork and general handling. We have taken lots of walks around the grounds and for the first time today she followed me so relaxed with a loose line.

Everyone at the barn adores her!!! She is settling in to the barn routine and enjoys the company of her herd especially Monty, Tiny and Disney.

I love her so much! And have connected with her! I have renamed her **Juno**. I will be sending some new pictures soon and am very happy to share them with everyone! Thank you so much for letting this wonderful girl become part of my family! I will keep you posted and send pictures.
